Github: : https://github.com/upendra-reddy123 Mobile: +91-9392716348

SKILLS

- **Languages**: Python, C, Java, SQL
- **Frameworks**: Pandas, NumPy, Seaborn, Matplotlib, Py-torch, TensorFlow, Scikit-learn
- **Tools/Platforms**: Excel, Git, Tableau, Jupyter Notebook
- **Soft Skills**: Collaborative, Problem solving, Adaptability, Project management, Communication Skills

TRAINING

Lovely Professional University – Center for Professional Enhancement

Fundamentals of Data Structures: Learn,Apply and Build Projects June'25 –July'25

- Learned Java basics and object-oriented programming (OOP).
- Practiced core data structures – Arrays, Linked Lists, Stacks, Queues, Trees, Graphs.
- Applied algorithms – Sorting, Searching, Traversals – to solve problems.
- Improved problem-solving and coding skills through exercises and projects.
- Completed Fundamentals of Data Structures course at LPU with Grade B.

PROJECTS

Electric Grid Failure Prediction | Java, Data Structures & Algorithms, Graph Theory, VS Code June'25

- Designed a Java-based simulation system to predict electric grid failures using graphs, queues, and priority queues.
- Modeled grid nodes with parameters like voltage, current, and temperature, dynamically calculating failure probabilities
- Implemented BFS and Dijkstra's to identify shortest/safest paths from vulnerable nodes to generators.
- Tools Used: Java (JDK 8), Visual Studio Code | Concepts: Graph DS, Queues, Priority Queues, Predictive Simulation
- GitHub Link: https://github.com/upendra-reddy123/Final-project-cse307

Music Player | Python, Tkinter, MySQL, GUI Development Feb'25

- Built a Python-based desktop app for each and every.
- Implemented role-based login authentication for secure access control.
- Designed modules for Playing,pausing and listerning.
- Created a Tkinter GUI with navigation, dropdowns, and error handling for usability.
- GitHub Link: https://github.com/upendra-reddy123/Music-Player

CERTIFICATES

- **Data Analysis with Tableau** – *Coursera* Jun'25
- **C Language** – *Neo Colab* May'24
- **Python 101 for Data Science** – *Cognitive Class (IBM)* Apr'24
- **Python Programming** – *iHUB DivyaSampark, IIT Roorkee* Mar'24
- **Responsive Web Design** – *freeCodeCamp* Oct' 23

ACHIEVEMENTS

- **Leadership & Extra Curricular:** May'24
  Worked as a volunteer at NGO(Old Age Home), contributing towards the social responsibility.
- **Event Management:** Mar'23
  Qualified to 2nd round in a hackathon conducted under Coding Ninjas

EDUCATION

- **Lovely Professional University** Jalandhar,PB
  Bachelor of Technology - Computer Science and Engineering Aug' 23-Present
- **Sri Chaithanya College** KMM, TG
  Intermediate; **Percentage: 97%** Jun'22 – Mar'23
- **Bharath English Medium High School** Madhira, TG
  Matriculation; **Percentage: 100%** Jun'20 – Mar'21
